

ARCH BREACHALERTSM CYBERSECURITY SOLUTIONS FOR ARCH POLICYHOLDERS

A package of advanced cybersecurity tools to identify and contain cybersecurity threats available exclusively to Arch CyProSM policyholders.

EMAIL INBOX EVALUATION powered by ABNORMAL SECURITY

Evaluation of email inboxes for malicious emails, phishing campaigns, invoice fraud attacks or compromised email accounts.

✓ Available to all policyholders.

AFTER HOURS CALL NOTIFICATIONS powered by AlertOps

Phone call notifications during non-business hours to alert your security team when unusual activity is detected that requires a rapid response. Up to 5 users have access to this flexible platform for phone call notifications during non-business hours for their standard offering.

✓ Available to applicants with business revenues under \$1B and without a 24x7 SOC currently in place.

EXTERNAL VULNERABILITY SCANS powered by BLACKKITE

This award-winning platform provides the industry's most accurate and comprehensive cyber intelligence - helping gain full visibility into your external attack surface to identify critical vulnerabilities.

✓ Available to all policyholders.

RANSOMWARE TABLETOP EXERCISE provided by Cipriani & Werner

The Ransomware and Business Email Compromise/Wire Fraud Tabletop exercise is an interactive experience designed to walk an Arch policyholder through all phases of a Cyber incident.

✓ Available to policyholders with a premium in excess of \$200,000 and available discounted for those with premiums under \$200,000.

RANSOMWARE DETECTION AND RESPONSE powered by DarkwebIQ

Ransomware Detection & Response (RDR) is a solution that exclusively identifies active compromises and intercepts attacks. Clients will receive Code Red Alerts from Arch Cyber Risk Engineering (ACRE) and DarkWebIQ if ransomware access to their company is being sold on the Dark Web. This service moves beyond commoditized monitoring to infiltration, action and prevention.

✓ Available to all policyholders.

CYBER RISK RESOURCE PORTAL powered by eRISKHUB®

Provides tools and resources to help you understand your exposures, establish a response plan and minimize the effects of a breach on your organization.

✓ Available to all policyholders.

IDENTITY MANAGEMENT AND MFA EVALUATION powered by Silverfort

Identity security assessment to bring awareness into administrative users, service accounts, remote access and more.

✓ Available to policyholders with 250 or more employees.
