

## Fleet Case Studies

Q1 2026

**Distribution of biological control systems and leasing and maintenance of machinery**

GWP Range  
£15,000 - £20,000

We held the commercial combined risk for this client and worked with the broker to put a package together for the associated vehicles, finding a solution for a driver with an adverse history.

**Fishing industry engineers**

GWP Range  
£10,000 - £15,000

We worked with a local broker to put together a quote in a short space of time on Christmas Eve and were able to meet their needs at the premium level required to help them win the business as the attacking broker.

**Machinery hire**

GWP Range  
£5,000 - £10,000

Our broker had already placed cover for the machinery elsewhere that was on hire but approached us looking for a policy to cover the vehicles delivering them, which we were able to accommodate.

**Fine art movement, fabrication of displays and installation**

GWP Range  
£15,000- £20,000

A specialist company in the art world required cover for the vehicles that moved fine art. The vehicles themselves were adapted for the role and as well as the vehicles used for the installation work. Due to unique nature of this type of business, we were able to place cover.

# Fleet Case Studies

Q1 2026

**Event organisers, specialising in floral displays for prestigious exhibitions, hotels and weddings**

GWP Range  
**£10,000 - £15,000**

We worked closely with our broker to gain a thorough understanding of how the client operated within a City environment, and with those additional details, we were happy to provide the cover they needed.

**Maintenance of MRI/ CT Scanning Equipment**

GWP Range  
**£15,000 - £20,000**

This insured provides critical services to the NHS, ensuring set up and maintenance of scanners - where attention to detail and delivery of service was critical to them. The majority of vehicles requiring cover were standard, with the exception of one HGV which we accommodated.

**Tree Surgeons**  
GWP Range  
**£5,000 - £10,000**

Although a standard occupation for Arch, there were a couple of aspects to the risk involving specialist trailers, where due to the appropriate security measures being in place, meant we were happy to write the risk and ensure the client was adequately covered.

**Animal Protection charity**  
GWP Range  
**£5,000 - £10,000**

We worked with our broker to provide a solution for the client's unique vehicles, which were modified with fixed cages for the animals and featured specialised wrapping. We were able to combine this with covering the vehicles for the other work the charity did to support itself.
