

Providing product-led liability solutions

Introducing Solving Complex Risk

At Arch Insurance, we look to underwrite complex risk from cars to cosmetics, research to renewables, medical to military & defence. If your client's risk is product/public liability-led, then let us see if we can solve it for you, through either a stand alone or within a combined offering.

Key Features

- Commercial package and standalone policies offered.
- Claims made basis available.
- Legal expenses insurance including cover for contract disputes.
- Quick decision-making and turnaround times.
- Regional underwriting expertise.
- Access to a range of added value services:
 - Risk management tools.
 - Online health & safety and business continuity plans.
 - Online and telephone legal advise assistance.
