Arch Risk Control provides expertise and innovation to support our clients' loss prevention strategies. Our flexible service approach is founded on sharing in-depth industry knowledge and thoroughly understanding your business to create tailored solutions for improved performance and results.

COLLABORATIVE APPROACH

- Our risk management specialists collaborate with your risk management and safety team to develop targeted solutions based on best practices.
- Our goal is to support your risk management and safety objectives to improve efficiency and profitability.

PRACTICAL SOLUTIONS

- Our consultative approach integrates additional perspective into your existing risk management programs.
- We seek to understand your challenges and create opportunities to leverage our combined strengths for the best outcomes.
- We focus on solutions that are relevant, effective and sustainable.

SPECIALIZED SERVICES

- Our holistic approach identifies operational risks and leverages opportunities.
- We combine our industry experience with your capabilities to help you achieve meaningful improvements.
- We've built industry alliances to address your everyday risks and help you achieve your goals.

COMPLIMENTARY RESOURCES

Arch Insurance policyholders receive complimentary access to Arch Insurance's Risk Control Portal – a comprehensive platform provided by Zywave – that contains a wide range of high-value tools and interactive applications designed to help insureds with a variety of safety, risk management, HR and compliance issues.

FOCUSED ALLIANCES

Additional resources bolster policyholder safety and risk management programs:

- Safety and Risk Management cloud-based technology.
- Continuous Motor Vehicle Record (MVR) monitoring.
- Vehicle telematics and camera system.
- Mobile device blocking and distracted driving management.
- Hand-held apps.
- Crisis management and mental health services.

TARGETED CAPABILITIES & SPECIALTY SERVICES

- Risk Control consulting services, both remote and on-site.
- Learning Management System online programs.
- Ergonomics - both industrial and office-based.
- Department of Transportation (DOT) and general fleet risk management services including training, auditing and consulting.
- Behavioral-based safety and safety perception surveys.

Arch Risk Control Directors have an average of 25 years of experience. We focus our industry insights and data analytics to prioritize meaningful and actionable improvements that increase profitability and efficiency.
