Supplemental Health Benefits

Arch Accident & Health offers a solution that combines Accident Medical Expense Reimbursement, Critical Illness, and Accident & Sickness Hospital Cash all on the same package. Provided the insured has major medical coverage, there's NO MEDICAL UNDERWRITING for the policy to be issued. These benefits are available in different combinations under different plans/packages, allowing you to configure the right benefit mix and price point for your prospective clients.

Accident Medical Expense Reimbursement:

Accident medical expense reimbursement insurance is designed to help relieve financial strain from unexpected medical expenses in the event of an accident resulting in injury. This benefit is designed to help cover medical expenses not covered by major medical that may arise from accidents, such as emergency room visits, hospital stays, surgeries, doctor's appointments, ambulance services, and other related medical treatments.

Critical Illness Indemnity:

Critical illness insurance is designed to help individuals and families manage their budget when hit with unplanned expenses resulting from unexpected illnesses or medical conditions as the insureds are free to use the benefit payments however they wish. It can offer a financial cushion during challenging times by providing a one time cash benefit when certain illnesses occur, helping policyholders focus on their recovery rather than financial worries. Illnesses covered under this benefit include: Cancer, Heart Attack, Stroke, Kidney Failure, Major Organ Transplant, Multiple Sclerosis, Coronary Artery Bypass Surgery, Alzheimer's Disease, Lou Gehrig's Disease, & Ruptured Aneurysms.

Accident & Sickness Hospital Cash:

Accident & Sickness Hospital Cash insurance is just that: Cash benefit payments are paid directly to the policyholder when hospitalized due to an accident or sickness. Unlike Critical Illness insurance, which offers a one-time lump-sum payment upon diagnosis of specific severe illnesses, Accident & Sickness Hospital Cash pays a daily amount benefit for each day the insured individual is hospitalized. An additional daily benefit equal to the primary benefit amount is paid if hospitalized in an Intensive Care Unit. The cash benefit can be used for a variety of needs as the policyholder so desires, not just medical bills. It can help cover lost income, transportation costs, childcare, and other incidental expenses that may arise during hospitalization.
